

Unidentified Buildings, University Hospital Site

Herrick Archives Numbers H 334, H 335, H 336, H 337

There is evidence of four unidentified buildings on the site of University Hospital (089).
See map below.

For identification of other buildings shown, see Appendix A.

For indexing purposes, these buildings have been arbitrarily listed as follows:

H 334 - 385 West Twelfth Avenue

H 335 - 383 West Twelfth Avenue

H 336 - 381 West Twelfth Avenue

H 337 - 430 West Tenth Avenue

The earlier of these buildings designated H 334, appears first on an August 1917 map (191-47). It also appears on Map 192-13 (1922), and 192-28 (c. 1924). It does not appear on 192-53 (1926).

The building also appears on several photographs in the early 1920's including X 1001 (c. 1920), X 22972 (1921), X 7683 (1922) and X 22706 (1922). The clearest picture of the building is X 22972 the building to the right of the head of the horse on the right.

See Addendum No. 1

This building was of one-story, frame construction, and Map 191-47 would indicate that it was about 10 feet wide and 20 feet long.

Buildings H 335, H 336, and H 337 appear on Map 194-27 (1946). H 335 and H 336 appear as white structures in the wooded area in the left central area of Photograph X 1025 (c. 1947). They were one-story frame buildings 12 feet long and 9 or 10 feet long, H337 appears in X 1025 as a rather dark image to the left and slightly below H 335 and H 336.

All of these buildings were of frame construction.

Their use is unknown.
